CUSTOMER NOTICE

New UCC System Roll Out

On Thursday, August 12, 2004, the Secretary of State's Uniform Commercial Code Section is rolling out a new client-server application that is web and image-enabled. This new system allows us to use electronic workflow software to route documents through the office and provide the ability to store electronic images of processed documents.

As a result of the system changes, we are able to offer an exciting and user-friendly web interface – UCC Connect – which can be used to submit filings and search requests, view images, order copies and conduct various queries.

www.uccconnect.sos.ca.gov

We will continue to offer services via mail and at our public counter in the Sacramento Secretary of State's Office.

For more information on using UCC Connect or any of our UCC services, please contact our UCC Section at (916) 653-3516 or email us at UCCConnect@sos.ca.gov.

Thank you for your business and support.
